

PROGRAMME

OTOLOGICAL SURGERY AND MICRODISSECTION OF THE TEMPORARY BONE COURSE

UNIDADE
RIO DE
JANEIRO

CHAIRMAN

Claudio LOTTENBERG

President

United Health Group Brazil

PRESIDENT

Jacques Marescaux

President, IRCAD

University of Strasbourg, France

COURSE DIRECTOR

Fernando Portinho

SCIENTIFIC DIRECTOR

Armando Melani

Americas Medical City

Rio de Janeiro, Brazil

COURSE COORDINATOR

Marcelo Tepedino Junior

COURSE COORDENATOR

Monica Majeski

COURSE COORDINATOR

Priscila Dias

COURSE COORDINATOR

Anderson Santos

OBJECTIVES

- To offer knowledge of otologic surgery for both beginner and experienced students for their improvement.

EDUCATIONAL METHODS

- Theoretical lectures
- Practical training sessions with dissection in human temporal bones

FACULTY & TRAINER

FACULTY:

TRAINER:

Version: July, 20th 2018

This programme may be subject to modifications

FIRST DAY

THEORETICAL SESSION

08.00 am	Welcome	
08.30 am	Practical aspects of otoendoscopic surgery	
09.15 am	Radiological Anatomy of the Temporal Bone	
10.00 am	Patient Preparation for Otologic surgery / Facial Nerve Monitoring	
10.30 am	Coffee Break	
11.00 am	Demonstration and Practice <ul style="list-style-type: none"> Otoendoscopic surgery 	
12.00 am	Lunch at the Institute	

PRACTICAL SESSION – ANATOMICAL DISSECTION

01.00 pm - 05.00 pm	Endoscopic Middle Ear Surgery	
	<ul style="list-style-type: none"> Tympanotomy for insertion of ventilation tube 	
	<ul style="list-style-type: none"> Preparation of the meatal tympanic flap 	
	<ul style="list-style-type: none"> Exploratory tympanotomy 	
	<ul style="list-style-type: none"> Anatomy of the middle ear 	
05.00 pm	<ul style="list-style-type: none"> Tympanoplasty with tragus graft (manufacture of the tragus graft) 	
	<ul style="list-style-type: none"> Exposure of the oval window (introduction to stapedotomy) 	
05.00 pm	End of the First Day	

SECOND DAY

THEORETICAL SESSION

08.00 am	Mastoidectomy - Cavity Open x Closed	
08:30 am	Anatomical References for Mastoidectomy	
09.15 am	Posterior Tympanotomy	
10.00 am	Coffee Break	
10.30 am	Demonstration and Practice of Dissection	
12.00 am	Lunch	

PRACTICAL SESSIONS – ANATOMICAL DISSECTION

01.00 pm - 05.00 pm	Tympanomastoidectomy - Cochlear Implantation - N. Facial Decompression	
	<ul style="list-style-type: none"> Retroauricular incision 	
	<ul style="list-style-type: none"> Manufacture of flaps 	
	<ul style="list-style-type: none"> Temporal muscle fascia graft and shell 	
	<ul style="list-style-type: none"> Antrostomy 	
	<ul style="list-style-type: none"> Aticotomy 	
	<ul style="list-style-type: none"> Posterior Tympanotomy (round window view) 	
	<ul style="list-style-type: none"> Cocleostomy / Round window opening 	
	<ul style="list-style-type: none"> Identification of the posterior fossa / endolymphatic sac / jugular gulf 	
	<ul style="list-style-type: none"> Identification and decompression of facial N. Ossiculoplasty 	
05.00 pm	End of the Second Day	

THIRD DAY

THEORETICAL SESSION

08.00 am	Understanding Cochlear Implants and Osteoarthritic Prostheses	
09.00 am	Meatoplasty Techniques	
09.20 am	Tricks and Tricks in Otology Surgery	
10.00 am	Coffee Break	
10.30 am	Demonstration and Practice of Dissection	
12.00 am	Lunch at the Institute	

PRACTICAL SESSIONS – ANATOMICAL DISSECTION

01.00 pm - 05.30 pm	Mastoidectomy Cav. Open - Labirintectomy - Internal Auditory Conduction	
	<ul style="list-style-type: none"> • Felling of the posterior wall of CAE 	
	<ul style="list-style-type: none"> • Exploration of the middle ear and relation with the mastoid 	
	<ul style="list-style-type: none"> • Identification and opening of semicircular canals • Access to internal auditory conducts 	
05.30 pm	End of the Third Day
